

ALL FOR THE FAIR.

Coming Events Cast Their Shadows Before—A Good Showing.

UTAH, THE PRIDE OF THE WEST.

How the Citizens are Rallying to Build Up An Interest in Home Productions—The Special Premiums.

A few days ago THE HERALD published a list of business firms and others who had made special offers of premiums for the fair of 1889. Others have been offered since then and are given below. If indications tell anything they tell in strong language that the fair of 1889 will be something the people will be proud of. On Saturday evening next the directors meet to formulate the premium list. As soon as possible thereafter it will be sown broadcast throughout the Territory and the harvest that will be reaped therefrom at the fair in October will be luxuriant and golden. The city of Buffalo, New York, has by the public spirit of her citizens erected the largest fair building in the world and annually gives away \$100,000 in premiums. They do it to build up their city and their laborers are rewarded by a growth that is simply amazing. If the people of Utah love their country they can show it in no better way than by fostering home industry. They can foster home industry in no easier way than by assisting an institution which has for its sole object the promotion of the industrial arts and the development of the resources of the territory of Utah. Such an institution is the Deseret Agricultural and Manufacturing Society, which is now on an assured basis, having a portion of an expedition building in which its annual exhibitions may be held and every prospect that the territorial legislature will continue to extend a helping hand until the building shall be as complete and perfect a structure for exposition purposes as any in the west.

FOR A UTAH HORSE.
Mr. Sam Levy offers a special cash premium of \$25 for the best two-year-old horse, born and reared in Utah.

UTAH WHITE OATS.
"We will offer 100 pounds of alfalfa seed as a special premium for the best sample of 100 bushels of white oats raised in the territory. Respectfully yours,
BAILEY & SONS."

A BRICK.
Mr. W. S. Simpson the brick man says: "You may place me for \$25 special premium for coming fair, to be disposed at option of committee."

WHO DREST DO MORE.
"I will make this offer: a chest of good tea (value \$12) to go to the best butter maker. C. B. DUBST."

THE BEST HANGS A TALE.
"We take great pleasure in offering a \$50 cash prize for the best historical narrative of not less than 10,000 words, the successful article to be our property; also \$10 to be used as the officers of the society may direct. GEORGE Q. CANNON & SONS."

AS OTHERS SEE US.

"We will offer a gold medal, worth \$25.00, for the best five-pound batch of pure Jersey butter made in your state. The award to be governed by the rules of the association, except that each entry competing must be accompanied by a written statement that the butter was made from the milk of pure blood Jersey cows.
The Jersey Bulletin, Indianapolis, Ind."

A COOL REMEDY FOR AIT.
"I have the pleasure to inform you that the Deseret National bank will give a special premium of \$30 for the best exhibit in each of the following branches of art, executed and exhibited by Utah artists, to be exhibited at the coming fair, viz:
For the best oil portrait, \$25.
For the best oil painting, Utah scenery, \$25.
For the best crayon or India ink portrait, \$25.
For the best water color painting, any subject, \$25.
For the best collection of photographic specimens, \$25.
L. S. HILLS, Cashier."

THE RIGHT SPIRIT.
"I want to do something, of course, but do not know what. If there is any one thing needing greater encouragement than another that you know of, please enter a \$25 premium for me. It is immaterial to me what particular local industry it goes. H. PENNICK."

THE UTAH PENITENTIARY.

Some Suggestions For Improvements—Employment Should be Furnished.

Frank Strong and Howard Perry, agents, write as follows to the attorney general, concerning the Utah penitentiary and its inmates: "We went to Utah and inspected the Utah penitentiary at Salt Lake City, in which there are at present confined about 200 prisoners. At the last examination of this institution, which was made by the general agent in 1886, the prison was in a most wretched condition, the only accommodations for the prisoners being three or four small log houses which were always over crowded and badly ventilated, and necessary a new, cell-wind has been erected which fairly accommodates all the male prisoners, but this will soon be over crowded. The building is well constructed and the cell accommodations, facilities for feeding, etc., are excellent. The food furnished by the marshal, who is the acting warden, is of good quality and plentiful. The cost of feeding the prisoners at present amounts to about \$100 a day. There are no accommodations for female prisoners with the exception of one small wooden room which is but poorly suited to the purpose. The walls surrounding the prison, and the house for the warden and officers' quarters are all built of adobe and are rapidly falling to decay, and would be replaced as soon as possible. An appropriation for this purpose including a building for officers' quarters, and the house for the warden, etc., is understood, will be available. We earnestly recommend that steps be taken

as soon as practicable towards the erection of this building, as well as the removal of the water right and twenty acres of land adjacent to the penitentiary, which are also provided for in the appropriation. The prisoners are

MORTALLY KEPT IN IDLENESS, as no employment of any kind is furnished by the government. We regard this as an evil which should be corrected if possible, and believe that some kind of industry should be provided in which the convicts could be kept busy. We do not know that this is practicable, but, however, think it may be possible to employ them in making bricks, as clay for this purpose can be found near the prison walls. If necessary, we believe there should be given by legislative enactment to the attorney general, power to provide means to employ the prisoners at the Utah penitentiary, in the industry spoken of, or something of that kind, as the evils resulting from idleness are many and apparent to everyone. Most of the inmates of this institution are Mormons, who have been convicted of unlawful consultation under the Edmunds law. They are usually persons who are willing and anxious to observe all the prison rules, and cannot properly be placed in the so-called criminal class. All of them, we have no doubt, would be glad to work at almost any employment which could be given them. The marshal has employed as acting warden immediately in charge of the prison, Mr. Pratt, who we believe, is well suited for the position, and performs his duties satisfactorily and thoroughly. Under his superintendence the prison is kept in good order, proper discipline is maintained, and everything about the place is cleanly and in good condition."

THE SOUTHERN UTES.

It Now Begins to Look as Though They Would Not Come to Utah.

Mr. William Bayly, who with Mr. George W. Kephart of Durango, visited Washington some time ago to secure the passage of a bill for the removal of the Ute Indians from their present reservation in La Plata county, Colorado, to lands in Utah, is in Denver on his return to Durango. A Denver reporter met Mr. Bayly at the Windsor, where he told of his experiences at the capital.

"When we secured a hearing with Congressman Reed of Maine," he said, "we were confronted with a circular issued by the Indian Protective association charging that money had been used to secure the consent of the Indians to remove and that the lands which, under the new treaty, they have agreed to accept in lieu of the lands they now hold are worthless. The gentleman first asked us if we knew that such was the case, or if we knew that such charges had been made. We assured him that the contrary was true and that we were not aware that such charges had been made. He then produced the document."

"We were the members of the Indian commission aware of the existence of the document?" inquired the reporter.

"No," we met Mr. Childs, a member of the commission effecting the treaty and also a member of the Indian Protective Association."

and he assured us he was not aware of it two weeks after it was printed. Congressman Reed gave us a fair hearing, and I think he will be satisfied on investigation that the circular is false."

"How was the bill delayed until the adjournment?"

"Well, it is fair to say that the illness of Congressman Symes was mainly the failure of its passage during the last session, but when the committee of the house authorized one of its members to report favorably on the bill he simply put it in his pocket and kept it there for some time. This he did at the request of Congressman Dabell of Missouri."

"What was the peculiar interest of Mr. Dabell?"

"We were informed that he appeared before the House committee on behalf of the opponents of the bill, and that that was the reason for asking that the bill be delayed in this manner, until he could so appear, but it is likely that he has friends in the Missouri Cattle company running cattle in the Paradox valley which would be affected by the removal of the Utes. When Dabell did appear before the committee there was not a quorum to transact the business. Had not Congressman Symes been ill I think he would have."

SECURED THE PASSAGE OF THE BILL IN THE HOUSE."

"Do you apprehend any danger to the Indian association?"

"No, not much, though it is a menace to the passage of any Indian removal bill, even if it is much better for the Indians. I think we will only have to wait another year to secure the removal of the Utes. The Indians are even more disappointed than the whites that they cannot go to their new lands."

Bishop F. A. Hammond, of San Juan County, who is posted on all points concerning the Southern Utes, was seen by a Herald reporter yesterday. He said he was aware that while it had been reported here that the bill had been passed by both Houses and ratified by the President, but it is expected to be taken up at the coming session.

WOMAN'S TRIUMPH.

A Severe Surgical Operation. It is Endured without Taking Either. Return of the Disease prevented.

From the Correspondence of the Kingston, N. Y. Freeman.

The case of Mrs. Edward Meyers, of Rye, out, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for Erysipelas of the hand, without benefit. Not until her hand had become a mass of putrid flesh did she turn to Dr. David Kennedy, proprietor of the "Favorite Remedy," which is made at Rondout, N. Y.

He informed her that it was impossible to save the hand—it must be amputated. She received the terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moaning a muscle or uttering a groan.

Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent a return of the disease, and Mrs. Meyers now lives and rejoices in her great deliverance.

Dr. Kennedy's "Favorite Remedy" is a famous, a trusted household friend in all cases of Erysipelas, and diseases of the blood, Kidney and Liver complaints, and Constipation of the Bowels.
